Profile Summary

Motivated and enthusiastic junior web developer with a strong foundation in front-end technologies, including React, Next.js, and Tailwind CSS. Adept at creating responsive and user-friendly web applications, I combine a passion for clean design with a focus on functionality. Continuously learning and growing, I am eager to contribute my skills to collaborative teams and dynamic projects while advancing my expertise in modern web development.

Education

Bachelor of Computer Science

Branch: Software Engineering
Institute/University: Islamic Azad University
Karaj, Alborz, Iran
2023 - Present

Projects

weebix porject

November 2023
Weebix is a personal branding website designed to showcase resumes interactively. Built using React, Next.js, and Tailwind CSS, it offers a clean and modern interface for professionals to present their skills, experiences, and achievement

nabeghe learn

January 2024
Built a modern, Persian-language educational platform using Next.js and Tailwind CSS. The project features server-side rendering for optimal performance, a fully responsive and accessible UI, and smooth routing between pages. Focused on delivering a clean user experience, fast load times, and scalable architecture for future content expansion.

pearl project

January 2025

Built an elegant and fully responsive e-commerce website for a jewelry brand using **Next.js**, **Tailwind CSS**, and **Redux** for state management. The website features a seamless shopping experience with product filtering, dynamic content rendering, and smooth client-side navigation. Utilized Redux to manage the global state and ensure a consistent user experience across pages. The project also emphasizes responsive design and high-performance loading times to enhance customer engagement.

little more about me

I am a passionate junior web developer with a keen interest in crafting intuitive and visually appealing websites. With hands-on experience in technologies like React, Next.js, and Tailwind CSS, I enjoy bringing ideas to life through clean, efficient code. Anything that seems impossible makes me even more determined.

I thrive on learning and growing, always eager to tackle new challenges and expand my skill set. Whether it's creating dynamic user interfaces, solving technical problems, or collaborating on impactful projects, I bring a curious and enthusiastic mindset to everything I do.

I'm excited about opportunities to contribute, grow, and make meaningful connections in the tech industry as I embark on my professional journey

Personal interests

Exploring innovative web technologies and staying updated with the latest industry trends

Enjoying video games, which inspire my creativity and problem-solving abilities
